

1. Dharma refers to the moral and ethical duties governing an individual's behavior in society. It encompasses righteousness, law, and order, guiding individuals toward a balanced and just life.
2. The Vedas are the oldest sacred texts of India, forming the foundation of Indian Knowledge Systems. They contain knowledge about rituals, philosophy, science, and spirituality.
3. Ayurveda is an ancient system of medicine that focuses on holistic healing through balance of body, mind, and spirit. It uses natural remedies, diet, and lifestyle practices.
4. Yoga is a discipline that integrates physical postures, breathing techniques, and meditation to achieve mental and physical well-being. It is a key component of Indian Knowledge Systems.
5. Guru-Shishya Parampara is the traditional teacher-student relationship where knowledge is passed orally and experientially from the guru (teacher) to the shishya (student).
